This bag is made of 21 joined hexagones. The size is approximately 37 cm wide and 41 cm high. The hexagone is 12,5 cm wide.

### US-crochetterms

Ch= chain

Sc= single crochet

Sl st= slip stitch

Dc= double chrochet

Hdc= half double crochet

Tr= treble crochet

Tr3tog= treble crochet together

Bpdc= back post double crochet

Fpdc= front post double crochet

Lp = loop

St=stitch

### Colours:

I used my Catona 109-pack with 10 g balls. You can see pictures in my blog [www.diwybytitti.wordpress.com](http://www.diwybytitti.wordpress.com) if you want to use the same colours. The last row of each hexagon is made with white yarn and so is the joining.

## Hexagon:

I cut the yarn and weave in the ends when I'm changing colour.

Ch4, join o a ring with a sl st.

Ch3, 11dc around the ring =12dc, end with 1 sl st in the third ch.

Ch1, 1sc, Ch3, \*1sc, ch3\*, repeat \*\* 10 more times = 12 lb. End with a sl st in the first sc.

Sl st to the first lp, ch1, 1sc, in the next lp (3dc, ch2, 3dc), \* in the next lp 1sc, in the next lp (3dc, ch2, 3dc)\*, repeat \*\* 4 more times. Now you have a star with 6 points. Cut the yarn and weave in the ends.

With colour 2, \*1sc in one point, ch4, 1dc between the points, ch4\*, repeat \*\* and end with a sl st in the first sc.

Sl st to the first lp, ch3, 5dc in the lp, \*6dc in the next lp\*, repeat\*\*. Cut the yarn and weave in the ends.

With colour 3: \*1tr i st in the small space between the 6 dc:s in the loops, 1dc in each dc from previous row\*, repeat\*\*. Cut the yarn and weave in the ends.

With colour 1: In the tr at the top of the star point \*(1 fpdc, ch3, 1fpdc), skip 1dc, 1bpdc in the following 4 dc:s from previous row, skip 1dc, in the next tr (2 fpdc), skip 1dc, 1bpdc in the following 4 dc:s from previous row, skip 1 dc\*, repeat \*\*. Cut the yarn and weave in the ends.

Change to white yarn: \*in the ch3-lp 2dc, ch2, 2dc, 1 dc in each of following 12 dc\*, repeat \*\*. Cut the yarn and weave in the ends.

## Joining

Copyright: Kristin Stenke – diwybytitti 2018

The hexagones are joined with sc from the right side. Place the hexagones as the picture shows.

Start with the hexagones having one other hexagon at each side around them, crochet around the hexagon as you are joining one next hexagon at each side.

1 sc in the lp at the corner of the center hexagone and the hexagone you are adding (in the joining you crochet through both hexagons from the right side), 1sc in each st along the sides of the two hexagons, 1sc in the lp.

Now we are adding the next hexagon. 1sc in the same lp of the center hexagon and the new hexagon, 1sc in each st along the side of the two hexagons, 1sc in the next lp. Keep on like this until you added all 6 hexagons.

Work from the center hexagon and out to join the other hexagons.

When you have joined enough hexagons you must fold the bag together so you can join the sides and corners.

### Edge

White yarn:

1. Start in a lp in the top of one hexagon \*1sc in the lp, 1sc in each of the next 7 st, 4hdc, 4dc, 1tr, tr3tog (in the lp, in the join seem and in the next lp), 1tr, 4dc, 4hdc, 7sc\*. Repeat \*\* and end the row with a sl st in the first sc.
2. Ch1, \*4sc, 6hdc, 4dc, 2tr, tr3tog, 2tr, 4dc, 6hdc, 3sc\*. Repeat \*\* and end with a sl st in the first sc.
3. Ch1, \*4sc, 6hdc, 5dc, dc3tog, 5dc, 6hdc, 3sc\*. Repeat\*\*. Cut the yarn and weave in the ends

### Handles

My handles are approximately 21 cm. You can adjust the amount of dc:s to fit your handles. I made 54dc, crochet back and forth in 4 rows. Make sure the dc:s are in the middle of the side of the bag. Fold the flap and sew in at the inside of the bag.

### Lining:

If you want to you can also add some lining. It makes the bag even more beautiful and more stabil. Cut two pieces in the same size as the bag plus seam allowance. Sew the pieces together from the wrong side. Fold the upper side and sew it into the bag with slip stitches.
